CODE OF ETHICS

This Code of Ethics is based upon "Standards of Leadership for Members of Boards of Education" recommended by the CAFE Board of Directors in 1977:

1. I will be a staunch advocate of high quality free public education for all Connecticut children. In fulfilling my responsibilities, I will think of "children first."
2. I will, as an agent of the state, uphold and enforce all laws, rules, regulations, and court orders pertaining to public schools. I will strive to bring any needed change only through legal and ethical procedures.
3. I will strive to help create public schools which meet the individual educational needs of all children regardless of their ability, race, creed, sex, or social standing.
4. I will work unremittingly to help my community understand the importance of proper support for public education, whether it be in providing adequate finance, optimum facilities, staffing and resources, or better educational programs for children.
5. I will join with my Board, staff, community, and students in becoming fully informed about the nature, value, and direction of contemporary education in our society. I will support needed change in our schools.
6. I will strive to ensure that the community is fully and accurately informed about our schools, and will try to interpret community aspirations to the school staff.
7. I will recognize that my responsibility is not to "run the schools" through administration, but together with my fellow Board members, to see that they are well run through effective policies.
8. I will attempt to confine my Board action to policy-making, planning and appraisal, and will help to frame policies and plans only after my Board has consulted those who will be affected by its actions.
9. I will arrive at conclusions only after discussing all aspects of the issue at hand with my fellow Board members in meeting. I will respect the opinions of others, and abide by the

principle of majority-rule.

10. I will recognize that authority rests only with the whole Board assembled in public meeting, and will make no personal promises or take any private action which may compromise the Board.

11. I will acknowledge that the Board represents the entire school community, and will refuse to surrender my independent judgment to special interests or partisan political groups. I will never use my position on the Board for personal gain.

12. I will hold confidential all matters pertaining to schools, which, if disclosed, might needlessly injure individuals or the schools.

13. I will insist that all school business transactions be open and ethical.

14. I will strive to appoint the best professional leader available when a vacancy exists in the chief administrative position.

15. I will strive to appoint the best trained technical and professional personnel available, upon recommendation by the appropriate administrative officer.

16. I will support and protect school personnel in the proper performance of their duties. I will strive to ensure that all personnel have not only the requisite responsibilities, but the necessary authority to perform effectively.

17. I will refer all complaints through the proper "chain of command" within the system, and will act on such complaints at public meetings only when administrative solutions fail.

DISCRIMINATION COMPLAINTS - ADMINISTRATIVE REGULATIONS (COMMUNITY MEMBERS)

It is the policy of the Colchester Board of Education that any form of discrimination or harassment on the basis of protected characteristics such as race, color, religion, age, sex, sexual orientation, marital status, national origin, disability (including pregnancy), gender identity or expression, or veteran status is forbidden, whether by students, Board employees or third parties subject to the control of the Board. Students, Board employees and third parties are expected to adhere to a standard of conduct that is respectful of the rights of all members of the school community.

It is the express policy of the Board to provide for the prompt and equitable resolution of complaints alleging any discrimination on the basis of protected characteristics such as race, color, religion, age, sex, marital status, sexual orientation, national origin, ancestry, disability (including pregnancy), gender identity or expression, or veteran status.

If a complaint involves allegations of discrimination or harassment based on reasons such as gender/sex or disability, such complaints will be handled in accordance with other appropriate policies Series 4000 #4118.11 Sex Discrimination & Sexual Harassment in the Workplace; Policy Series 5000 #5145.5 Sex Discrimination & Sexual Harassment (Students); Policy Series 4000 #4118.14 Employees & Section 504 of the Rehabilitation Act of 1973 & Title II of the Americans with Disabilities Act of 1990, and Policy Series 5000 #5145 Students & Section 504 of the Rehabilitation Act of 1973 & Title II of the Americans with Disabilities Act of 1990.

Preferably, complaints should be filed within thirty (30) calendar days of the alleged occurrence. Timely reporting of complaints facilitates the investigation and resolution of such complaints. The district will investigate such complaints promptly and equitably, and will take corrective action when allegations are verified.

The district will not tolerate any reprisals or retaliation that occur as a result of the good faith reporting of charges of harassment or discrimination on the basis of race, color, religion, age, sex, sexual orientation, marital status, national origin, disability (including pregnancy), gender identity or expression, or veteran status. Any such reprisals or retaliation will result in disciplinary action against the retaliator, and other corrective actions as appropriate.

The school district will periodically provide staff development for district administrators and periodically distribute this Policy and implementing Administrative Regulations to staff and students in an effort to maintain an environment free of harassment and discrimination.

Complaint Procedure

As soon as an individual feels that he or she has been subjected to discrimination or harassment on the basis of race, color, religion, age, sex, sexual orientation, marital status, national origin, disability (including pregnancy), gender identity or expression, or veteran status he/she should make a written complaint to the Superintendent, or his/her designee. Complaints will be investigated promptly within the timeframes identified below. Timeframes may be extended as needed given the complexity of the investigation, availability of individuals with relevant information and other extenuating circumstances. Confidentiality will be maintained by all persons involved in the investigation to the extent possible, as determined by the investigator.

Upon receipt of a written complaint of discrimination, the investigator should:

1. offer to meet with the complainant and respondent (if applicable) within ten (10) business days (provided that such timeframe may be reasonably extended based on

the availability of necessary witnesses and/or participants during periods of time when school is not in session) to discuss the nature of the complaint, identify individuals the complainant believes has relevant information, and obtain any relevant documents the complainant may have;

The complainant and respondent (if any) shall be notified of any extension of the investigation timeline. The written notice shall include a finding whether the complaint was substantiated and if so, shall identify, to the extent possible, how the district will remedy the discrimination or harassment, adhering to the requirements of state and federal law;
7. if a complaint is made during summer recess, the complaint will be reviewed and addressed as quickly as possible given the availability of staff and/or other individuals who may have information relevant to the complaint. If fixed timeframes cannot be met, the complainant and respondent (if any) will receive notice and interim measures may be implemented as necessary (see sub-paragraph 6);
8. whenever allegations are verified, ensure that appropriate corrective action is taken (including, but not limited to, disciplinary action) aimed at preventing the recurrence of the harassment or discrimination. Corrective action should include steps to avoid continuing discrimination;
9. if either party to the complaint is not satisfied with the findings and conclusions of the investigation, the complainant may present the complaint and written outcome to the Superintendent within thirty (30) calendar days of receiving the findings. Upon review of a written request from the party requesting an appeal, the Superintendent shall review the investigative results of the investigator and determine if further action and/or investigation is warranted. Such action may include consultation with a

designated investigator (if applicable), complainant, and respondent (if any) and meeting with appropriate individuals to attempt to resolve the complaint, or a decision affirming or overruling a designated investigator's conclusions or findings (if applicable). The Superintendent shall provide written notice to the complainant and respondent (if any) of the proposed actions within fifteen (15) business days (provided that such timeframe may be reasonably extended based on the availability of necessary witnesses and/or participants during periods of time when school is not in session) following the receipt of the written request for review.

Community Relations

Concept, Goals and Roles in Community Relations

The Board of Education recognizes that the community, defined broadly as the state and specifically as the area served by the school system, determines the quality of local education. It is imperative that members of the community and the school personnel cooperate in planning, developing policy, implementing programs and evaluating results.

School-community relations are not merely reporting and interpreting. Rather, they are part of a public enterprise in which community members and school personnel play their respective roles in the best interests of the school district.

The Board of Education establishes the following goals for the community relations program:

1. To increase public understanding of the school system.
2. To increase community confidence and interest in the school system.
3. To promote effective dissemination of information concerning school activities.
4. To solicit community opinions about the school system.
5. To encourage the sharing of resources among civic and community organizations for the benefit of the school system.

Community Relations

School, Family, and Community Partnerships

Definition: “Community” and “community members” are defined as all of Colchester’s residents, businesses, organizations, and places of worship. “Families” are defined as “a child’s primary caregiver(s).”

The Colchester Board of Education believes schools, families, and community members are partners in the education of all children. This partnership is a major factor in improving school effectiveness, quality of education, and academic success. Therefore, the Colchester Public Schools will create and sustain an environment in which parents and other adults are valued as key influences in children's lives and are essential partners in the education of children. Administrators, teachers, families, and community members must work together to increase educational opportunities and to ensure the success of all students.

Families play a vital role in the intellectual, social, and emotional growth of their children; therefore, all educators and families must make family involvement in education a priority. The Colchester Board of Education is committed to providing parent education and the tools and resources that will assist families in supporting classroom learning and their children's achievement. The Colchester Public Schools will help parents understand Connecticut’s academic standards, local and state assessments, and the monitoring of their child's progress.

Families are full partners in the decisions that affect their children. Parents and educators have a mutual responsibility to make informed decisions about the education of their students. Families are empowered to advocate for students to ensure they are treated fairly and have equal access to learning opportunities. Colchester Public Schools shall actively enlist parents and community members representative of the Colchester community to participate in decision-making at both the district and the school level.

The Colchester Board of Education commits to the establishment of regular, timely, two-way, and meaningful communication between all schools and all families, respecting the diversity and differing needs of families. In addition, the Board of Education will communicate regularly with community members and solicit feedback in a variety of ways.

The Board of Education believes that volunteers are essential to the success of our schools. Collaboration among school, families, and community will be developed and fostered in order to enhance student learning and improve schools. The Colchester Public Schools will actively solicit parents and community members to serve in a variety of roles, who will be received as an integral part of the school community.

Community Relations

School, Family, and Community Partnerships

Colchester Public Schools shall provide information and training to all school staff on the contribution families and community members can make to the educational process. The Colchester Board of Education commits to providing support, coordination, and training for school staff, parents, and community members to implement and sustain this involvement.

This policy will be reviewed with families, community members, and school personnel annually; feedback from all partners will be solicited to evaluate its content and effectiveness. In addition, the Colchester Board of Education will involve families and community members in the development and implementation of a Title I plan and the process of school review and improvement to meet federal and state laws.

SCHOOL VOLUNTEERS, STUDENT INTERNS, AND OTHER NON-EMPLOYEES POLICY

The Board of Education recognizes the importance of school volunteers at all levels of schooling. Volunteers can enhance collaboration between the school and community, broaden the school's educational environment and ultimately enrich students' school experience. The Board further acknowledges that it may, from time to time, be asked to provide learning experiences for student interns within the school environments. In recognition of the benefit of having volunteers, interns and other such non-employees providing services within the schools, the Board supports the involvement of these individuals in accordance with suitable regulations and safeguards to be developed by the Administration.

Volunteers, interns and other such non-employees working within the schools ("volunteers") must work under the supervision of Colchester Public Schools staff. Volunteers are held to the same standards of conduct as school staff and must observe all Board of Education policies, including applicable policies on the confidentiality of student information.

Volunteers may be required to submit to state and federal criminal record checks and a record check of the Department of Children and Families ("DCF") Child Abuse and Neglect Registry. No person who is required to register as a sex offender under state or federal law, or whose name is currently listed on the DCF registry, may volunteer in the Colchester Public Schools.

No employee of the Colchester Public Schools shall serve as a volunteer in any capacity, except as may be approved by the Superintendent or his/her designee based on the specific situation.

Persons interested in volunteering their services must complete a Volunteer Application form and forward it to the Colchester Board of Education office.

ADMINISTRATIVE REGULATIONS REGARDING SCHOOL VOLUNTEERS, INTERNS AND OTHER NON-EMPLOYEES

Screening Procedure

The following procedure has been established for screening volunteers, interns and other non-employees (“volunteers”) within the Colchester Public Schools. For the purpose of this procedure, volunteers are defined as those individuals who volunteer their time to assist in schools for the benefit of the student body with the express knowledge, consent and direction of a Colchester Public Schools employee. Student interns are defined as individuals currently enrolled in a post-secondary program for which an authorized internship is required or for which the student may be granted credit as part of an approved course of study. As with other volunteers, all student interns must be approved in advance by the building administrator or his/her designee and must be under the direction of a Board employee.

This procedure identifies those situations in which an individual may be required to submit to state and federal criminal record checks and a record check of the Department of Children and Families (“DCF”) Child Abuse and Neglect Registry within 10 days of application and/or request to volunteer within the Colchester Public Schools. All results must be received by the **[Human Resources Office]** before the volunteer may commence his or her services. No person who is required to register as a sex offender under state or federal law, or whose name is currently listed on the DCF registry, may volunteer in the Colchester Public Schools.

Screening Procedure Definitions

The District has identified two classifications of volunteers: Group I and Group II.

Group I

Volunteers will be classified in Group I when they assist school staff members with school activities in the presence of a Colchester Public Schools employee. Background checks will not be required of Group I volunteers. Group I volunteers are those who assist school staff members with school activities such as those listed below:

- a. assisting in a classroom, cafeteria, or library when a staff member is present; or
- b. accompanying a class on a field trip during the school day with a staff member; or
- c. helping in the school office during regular school hours; or
- d. assisting in the cafeteria or library during regular school hours; or
- e. assisting during extracurricular events, i.e., dances, fairs, open house, sporting events, etc.

Group II

Volunteers will be classified in Group II when they provide services to students when not in the direct presence of a Colchester Public Schools employee. Group II volunteers will be required to complete a consent form regarding the release of information concerning any prior or pending criminal offenses, and such volunteers will be required to submit to a record check of the Department of Children and Families (DCF) Abuse and Neglect Registry. Group II volunteers are those who engage in activities such as those listed below:

- a. accompanying a class on a field trip in which the plans include that students be divided into small groups supervised solely by the volunteer chaperone for any length of time; or
- b. chaperoning an overnight field trip; or
- c. working in direct contact with students without the direct presence of a Colchester Public Schools employee;
- d. working as a student intern; or
- e. coaching.

Upon receipt of DCF Abuse and Neglect Registry results indicating that the volunteer is involved in an abuse or neglect investigation or that the volunteer is listed as a perpetrator of abuse or neglect on the Registry, the Superintendent or his or her designee will notify the volunteer of the results of the Registry check and will provide an opportunity for the volunteer to respond to the results of the Registry check. No person who is required to register as a sex offender under state or federal law, or whose name is currently listed on the DCF registry, may be approved to volunteer within the Colchester Public Schools.

When a criminal record check of a volunteer reveals a criminal conviction, whether disclosed or undisclosed on the volunteer's consent form, the Superintendent will make a case-by-case determination as to whether to allow the individual to volunteer in the Colchester Public Schools. Prior to any such decision by the Superintendent or designee, the Superintendent or designee shall inform the volunteer and shall provide an opportunity for the volunteer to respond. Notwithstanding the foregoing, the falsification or omission of any information on a volunteer consent form, including, but not limited to, information concerning criminal convictions or pending criminal charges, may be grounds for the Superintendent or designee to prohibit the individual from becoming a volunteer.

Prior Approval Required

All school volunteers (including student interns or other non-employee working in the schools) must be approved in advance by the building principal or other administrative designee. The school district, acting through the appropriate building administrator or his/her designee, reserves the right to discontinue or disallow the services of any volunteer at any time at the discretion of the administration.

Sign-in Procedure

All volunteers must report to the school office upon arrival to sign in and must report to the office prior to departure to sign out. A sign-in/sign-out log will be maintained in each school office. Volunteers must indicate the purpose of their visit and include any other information (i.e. destination; provide proof of identification etc.) as may be required by the log. Additionally, volunteers will be provided with identification badges, which must be displayed during each visit.

COMMUNITY RELATIONS

NEWS MEDIA RELATIONSHIPS

Because schools are public institutions serving the educational needs of the community, it is important that information be disseminated concerning programs, activities, and significant school events. To ensure that this publicity be given wide coverage and coordinated with a common effort and purpose, the following procedures shall be followed with news media:

1. The Board of Education Chairperson shall be the official spokesman for the Board. The Superintendent of Schools may report on actions of the Board.
2. News releases of a system-wide nature, or which pertain to established school system policy, are the responsibility of the Superintendent and will be issued through his/her office.
3. News releases which are of concern to only one school, or to an organization of one school, are the responsibility of Principals. Principals shall follow the parent/caregiver consent guidelines for allowing students to be interviewed or photographed by the media.
4. Board meetings to which the public has access may be photographed, broadcast, or recorded for broadcast by any newspaper, radio broadcasting company, or television broadcasting company. This is subject to the following guidelines:
 - A. News media personnel who intend to photograph, broadcast, or record for broadcast the proceedings of any public meeting of the Board of Education shall provide appropriate identification to the Superintendent of Schools, if requested by the Superintendent, prior to said meeting of the Board.
 - B. Only news media personnel employed by a news outlet, radio or television broadcasting company, or personnel of a recognized student news medium assigned to cover the proceedings of a Board of Education public meeting shall be permitted to photograph, broadcast, or record for broadcast, such proceedings.
 - C. Any photographer, broadcaster, or news journalist authorized by an employer or student news medium to photograph, broadcast, or record for broadcast, proceedings at a public meeting of the Board of Education, and any personnel

associated with said photographer, broadcaster, or news journalist, shall photograph, broadcast, or record for broadcast proceedings of said meeting as inconspicuously as possible and in such a manner which doesn't disturb proceedings.

- D. If, in the judgment of the Chairperson of the Board of Education, the presence at a Board meeting of any photographer, broadcaster, or news journalist causes such disruption that orderly conduct of the public business at such meeting becomes unfeasible, access by these individuals may be limited to the extent necessary to remove disruption.

Distribution of Materials by Students (Use of Students)

Printed materials may be distributed to parents by students as inexpensive means of mass communications. At the same time this procedure can prove objectionable to parents and the school district if overdone.

To provide the most effective use of this technique without exploitation of staff or students, the Superintendent or his/her designee may approve such distribution providing:

1. The materials relate to the school, community, local recreational or civic activities.
2. The materials do not relate to any religious belief or activity, or promote private gain, or political position.
3. The materials do not promote any political party or candidate.

All requests from groups or individuals to have students distribute materials to people in the community, with the exception of requests from school-connected organizations like parent-teacher organizations or Board appointed citizens' ad hoc advisory committees, will be referred to the Office of the Superintendent to determine whether the requests comply with overall school purposes and policy.

Use of Students

The Board prohibits the use of students during normal school hours in activities which are not part of the normal educational and planned curriculum process. Permission for use of students in activities of a non-educational nature must be obtained from the Superintendent or his/her designee who will ensure that the student's rights in terms of voluntary activities are maintained and that students are not exploited either knowingly or unknowingly.

The Superintendent or his/her designee shall interpret this policy strictly. In case of differences of decision, the decision of the Superintendent will be final and may be made when, in their judgment, the best interests of the students will be served. In case of differences of opinion between them the decisions of the Superintendent will be final.

Budget/Referendum Materials

Information concerning a budget or referendum, specifying only the time, date, location, and question or proposal may be disseminated through the students. This information may not contain statements, or be written in a manner which may advocate a position on the budget or on a referendum question.

When a requested observation is refused, the building Principal or responsible administrator will provide the parent/guardian with the reason for the decision and will work to develop alternative ways for the parent/guardian to obtain the information the parent/guardian seeks.
7. If a building Principal or responsible administrator approves a request to visit a school building and/or observe a student program, arrangements must be made in advance to ensure that the visit will not disrupt educational programs. 3. Superintendent or her/his designee
4. Board of Education—
Should a member of the public not be satisfied with the response to a complaint after following the channels above, he/she may submit a written request for a meeting with the Board of Education. The Board will consider the written complaint, in executive session if appropriate, and will respond to the requesting party promptly, generally within thirty (30) days of receipt of the written complaint.

Complaints Regarding Books and/or Other Educational Materials

The Board of Education has established the following guidelines for addressing complaints regarding the utilization of books and/or other educational materials in the instructional program of the Colchester Public Schools.

1. A parent and/or legal guardian has the right to request that his/her child not read, view or hear given material, provided a written request is made to the appropriate teacher. The teacher will confer with the school administrator and will discuss the request and its impact on the student's participation in the curriculum. After such discussion, the teacher will notify the parent and/or legal guardian in writing of the alternative educational activity. No parent and/or legal guardian has the right to determine instructional materials for students other than his/her own children.

Community Relations/Public Complaints

Complaints Regarding Books and/or Other Educational Materials - continued

2. If there is parental and/or legal guardian concern about a particular book or instructional material, the parent and/or legal guardian will be given the opportunity to complete a “Request for Review of Book or Other Instructional Material” form (Policy/Regulation 6163.1 Form 1). This request will be reviewed by the teacher giving the assignment, the appropriate department chair, and the school administrator. If a question arises concerning the suitability of a library book or other library material, the same form will be used to register parental and/or legal guardian concern and the form will be reviewed by the library-media specialist, the appropriate department chair, and the school administrator. The school administrator will discuss the results of the review with the Director of Curriculum and provide an answer, giving the district’s position, to the parent and/or legal guardian. If the parent and/or legal guardian are not satisfied with the district’s position, he/she may appeal to the Superintendent.

Gifts from Suppliers and/or Contractors

The members of the Board of Education and its employees wish to avoid any conflict between their personal interests and the interests of the school district in dealing with suppliers, contractors and all organizations or individuals doing or seeking to do business with the regional school district.

Gifts to Board Members

No Board member or employee of the Board of Education shall directly or indirectly solicit any gift; or accept or receive any gift having a value of twenty-five dollars (\$25) or more, whether in the form of money, services, loan, travel, entertainment, hospitality, thing or promise, or any other form, under circumstances in which it could be reasonably inferred that the gift was intended to influence the Board member or employee in the performance of his/her official duties or was intended as a reward for any official action on his/her part.

COMMUNITY RELATIONS

SOLICITATION OF FUNDS

The objective of this policy is to provide the acceptance criteria and application method for soliciting gifts, grants, and bequests conducted by school-sanctioned parent organizations, district employees, and students of the Colchester Public Schools.

The Colchester Board of Education recognizes that certain types of fundraising activities will enhance the relationship between school and community and will contribute to the improvement of the school program. The Board also recognizes that businesses, cultural, and community organizations hold an interest in the quality of public education and, from time to time, offer to support that interest with a variety of contributions to the school district. School districts, however, are public institutions fully supported by taxes and the Board has a clear responsibility to protect students, staff, and their families from exploitation by special interests including, but not limited to, economic, environmental, and political exploitation. The Board also recognizes that exploitation works both ways. A potential donor may feel unduly pressured, either directly or indirectly, when solicited to contribute to a program promoted by a school system. Therefore the Board of Education establishes the following acceptance criteria.

Solicitation of Funds from and by Students, Staff and School Sanctioned Parent Organizations

1. There shall be sufficient educational or financial benefits to the school and/or students, either directly or indirectly, to justify the fundraising activity.
2. Fundraising shall be in good taste and appropriate for the school district.
3. Fundraising shall be limited to Board-approved activities; activities sponsored by faculty, students, and school-related parent organizations for nonprofit school benefits; or educational and recreational activities sponsored by agencies of the town government.
4. Solicitation of funds from businesses or other outside organizations shall be with the understanding that public recognition for contributions shall be appropriate and balanced.
5. Funds raised from the activity will be applied to a specific school system-related project.
6. The fundraising mechanics or procedures will not unacceptably burden staff or subject the school to unnecessary risks or responsibility as determined by the administration.
7. Instructional time will not be used to conduct or promote fundraising activities except in cases where it is an integral part of the curriculum.
8. School employees will not be approached during school hours for the purpose of soliciting funds or selling goods.

9. Handling and accounting of fundraising material shall be the responsibility of the sponsoring group, not the school or staff.

The following additional criteria shall be applied to solicitation by students:

1. Elementary school students will not participate in door-to-door sales or canvassing.
2. Elementary or middle school fundraising will not result in profit or advertisement for any commercial enterprise except when profits are realized in conjunction with the following events:
 - A. Annual all-school fundraising events of one week or less (e.g., fairs, bazaars).
 - B. Fundraising activities designed to acquire funds for approved field trips.
 - C. Class pictures.
3. Under no circumstances shall students be required to solicit and no mandatory quotas shall be imposed upon them.
4. Commercial enterprise for private profit will be allowed at the high school only for the purchase of goods and services deemed necessary by the Superintendent for normal student activities.
5. Activities related to fundraising shall not occur during normal school hours.

Application Procedure

1. All requests to conduct fundraising shall be submitted in writing at least 15 days prior to the proposed activity through the Superintendent.
2. The request shall identify the name of the school, name of the individual submitting the request, name of sponsoring individual or organization, fundraising activity dates, purposes of the fundraising activity, nature of the fundraising activity, anticipated expenses and profits.
3. At his or her option, the Superintendent may refer specific cases to the Board for decision.

Staff Funds

1. The participation of an employee in "flower funds," "sickness and bereavement funds," "anniversary funds" and the like shall be a matter of individual discretion.
2. Staff funds are exempt from the listed criteria.

SOLICITATION OF FUNDS - REGULATIONS

1. Principals will periodically (at least twice yearly) share plans for fundraising with other administrators in the system in order to coordinate those efforts and to reduce the overall impact or redundancy that may occur when such activities occur.
2. Programs which regularly obtain large amounts of supplemental funding through booster groups and other support mechanisms will provide periodic reports (at least annually) to the Superintendent describing the level of supplemental support.
3. Any individual or organization denied permission to conduct solicitations or fundraising efforts may appeal this denial to the Board of Education. A request for reconsideration shall be directed in writing to the Superintendent who will bring the item before the Board via the appropriate Board Committee and hence, if so directed, to the Board of Education as a whole. The petitioning organization or individual may present relevant information to the Board in the Committee forum.

Advertising and Promotion in the School System

The Board of Education believes that properly regulated opportunities for advertising and promotion can be a positive partnership between the school system and the community. The Board also recognizes its responsibility to protect its students from exploitation by private interests and to uphold the values and standards of the school system and community.

The Superintendent or designee must approve advertising in school district facilities or on school district property. Any approval will state precisely where the advertising is to be located and for how long. Advertising will not be allowed outside the approved location or time span.

Advertising, for the purposes of this policy, is defined as allowing for-profit making companies or organizations to utilize school property or facilities to promote their goods or services in exchange for money, service, material or other compensation. Advertisements must be aligned with the district's mission, core values and beliefs, as determined by the Superintendent or his/her designee.

Restrictions on Advertising

The following restrictions will apply to all advertising:

Advertising shall not:

1. Violate or contradict the standards, values or educational goals of the school district or community
2. Promote hostility, disorder or violence
3. Attach or defame ethnic, racial or religious groups
4. Discriminate, demean or harass any person or group
5. Inhibit the functioning of the school or district
6. Override the school or district identity
7. Involve any political promotion or endorsement
8. Be obscene or violate the prevailing community standards
9. Promote any religious organization
10. Use any district or school logo without prior approval
11. Allow any message deemed to be inappropriate as determined by the Superintendent of Schools or his/her designee

Funds Management and Allocation

Subject to primary oversight of the Board of Education, the Superintendent or designee shall have the authority to allocate revenue raised through advertising to support school district programs. Permissible uses of advertising revenue shall include, but are not limited to, the production of advertising materials, costs of attending student award ceremonies, funding student awards, purchasing trophies and equipment.

Community Relations

Advertising and Promotion in the School System

Funds Management and Allocation – continued

The Superintendent or designee may enter into partnerships with school-related programs, clubs and/or organizations for the purpose of selling advertising to support specific programs. Revenue raised to support such specific programs shall be allocated to those programs, provided, however, that the Superintendent or designee may allocate this revenue to other uses when needed.

All revenues and expenditures related to advertising shall be subject to reporting requirements as dictated the Chief financial Officer.

Approval

All proposals for advertising shall be submitted, in writing, to the Superintendent of Schools, on the Proposal for Advertising Form 1. Advertising proposals must be approved in writing by the Superintendent or designee prior to being displayed on school district property or facilities. The Superintendent may refer any proposal for advertising to the Board of Education for its approval. Any arrangement that calls for the district to enter into a formal contract must be approved by the Board of Education.

Advertising in school-based publications or activity “programs” (newspaper, yearbook, play programs, concert programs, etc.) must be approved, in writing, in advance, by the school principal or designee. This advertising must meet the standards described in this Policy. The principal may refer advertising to the Superintendent for approval.

Disclaimer:

The approval and sale of advertising by the school district does not constitute endorsement of any product, company or organization.

Use of School Facilities

The Board of Education recognizes the Colchester citizens' investment in school facilities (buildings, grounds and equipment). Use of these facilities by our community is encouraged for educational, cultural, civic, social, governmental, and recreational purposes when such use, as permitted by law, is sponsored by responsible individuals, organizations, agencies or institutions and where such use does not hinder the educational programs and activities of the Colchester schools.

Educational programs and activities of the Colchester Public schools will be given priority when scheduling school facilities. All facilities, grounds, buildings and equipment shall be in the charge and control of the Superintendent of Schools or his/her designee.

A uniform system to regulate the use of these facilities to promote the goals of the Board of Education and to fairly balance competing community interests for these limited resources will be established.

If a request is denied for use of Board of Education facilities, the decision may be appealed to the Superintendent of Schools and may be further appealed to the Board of Education.

Law Enforcement Officials

Schools are responsible for students during school hours which includes protecting each student's constitutional rights, assuring due process in questioning and arrest, and protecting students from any form of illegal coercion.

When police are investigating possible criminal acts which occurred, or may have occurred, on school property, or while under the jurisdiction of the school district, they may question students at school when the following procedures are observed:

1. Students will be questioned as confidentially and inconspicuously as possible.
2. An attempt will be made to notify the student's parents so that they may be present during the questioning. The school Principal, or his/her designee, will be present.
3. Preferably, the officer doing the questioning will wear civilian clothes.

Because of the many support services which local law enforcement agencies provide to the schools, staff, and students, the Board of Education supports the best possible relationship with those agencies consistent with district responsibilities to protect legal rights of staff and students.

The Superintendent of Schools is directed to establish lines of communication with local law enforcement agencies to effect necessary cooperation toward ensuring the security of the school facilities, the safety of students and staff, and for better student education about law enforcement agencies.

ADMINISTRATIVE REGULATIONS REGARDING: SCHOOL SECURITY AND SAFETY

I. Security and Safety Committee

In order to create a fully individualized safety plan for each district school, each school will establish a school security and safety committee. *The committee is responsible for assisting in the development of the school's plan and in administering the plan. The committee will meet at least annually to review and update the school's security and safety plan as necessary. In determining whether the security and safety plan requires updating, the committee will take into account the results of the security and vulnerability assessment of the school, as described in Section IV below. The security and safety committee shall also be notified of any instances of disturbing or threatening behavior that may not meet the definition of bullying and shall report such information, as necessary, to the district safe school climate coordinator. Any information provided under this regulation shall be provided in accordance with the confidentiality restrictions imposed under the Family Educational Rights and Privacy Act ("FERPA") and the district's Confidentiality and Access to Student Information policy and regulations.

****[This committee may be the same as the Safe School Climate Committee as long as the Safe School Climate Committee has the required members listed below.]***

The school security and safety committee shall include in its membership a local police officer, a local first responder, a teacher, a building administrator, a mental health professional, and a parent or guardian of a student at the school. Any parent/guardian serving as a member of the Committee shall not participate in any activities which may compromise the confidentiality of any student. Subject matter experts, including but not limited to the local public works director, food services director, the Superintendent of Schools, additional law enforcement members or first responders and representatives of the municipality or others shall be invited to participate as needed.

II. Security and Safety Plan

Each school's all-hazards school security and safety plan will be created using the format prescribed by the Connecticut State Department of Emergency Services and Public Protection/Division of Emergency Management and Homeland Security in conjunction with the Connecticut State Department of Education. The Board will submit the finalized school security and safety plan for each school to the Department of Emergency Services and Public Protection. Additionally, each plan will be filed as an annex to the municipality's Local Emergency Operations Plan, filed annually with DESPP/DEMHS pursuant to Conn. Gen. Stat. § 28-7. A reference kit that meets the requirements of DESPP/DEMHS will be created in conjunction with the security and safety plan, which will be available to first responders in the event of a safety or security emergency.

III. Training and Orientation for School Employees

Each school employee at the school shall receive an orientation on the school's security and safety plan. Additionally, each school employee at the school shall receive violence prevention training in a manner described in the security and safety plan. The training will be conducted in cooperation with the school safety and security committee and shall include local law enforcement, fire, emergency management, and emergency medical services. The goal of the orientation and training is to provide the school community and municipal officials with an understanding of the need for unified planning, preparedness, and response.

IV. Assessments

At least every two years, the Board shall conduct a security and vulnerability assessment for each school in the district. Each school's security and safety committee shall be advised of the results of the assessment for the committee's school and such results shall be considered by the committee in updating and revising the school's security and safety plan.

Local law enforcement and other public safety officials including the local emergency management director, fire marshal, building inspector and emergency medical services representative shall evaluate, score and provide feedback on fire drills and crisis response drills at each school in the district.
